

Venturing Beyond Limits Networking Event

Hosted by Quantum City and The Quantum Major Innovation Fund Project (QMP)

A fun-filled evening of sharing ground-breaking research, forging collaborations, and exploring opportunities in Alberta's quantum ecosystem. This captivating prelude to qConnect2023 will foster a vibrant atmosphere of intellectual energy, sparking engaging conversations with brilliant minds.

Event Description:

Accomplished researchers, talented post-doctoral fellows, and ambitious graduate students from universities across Alberta are coming together for the networking event Venturing Beyond Limits!

These innovators of quantum science and technology are excited to share their ground-breaking research with top visionary quantum trainees invited from around the globe. The purpose of the event is to ignite collaborations and explore unique opportunities relating to quantum right here in Alberta. Our guests will have an opportunity to explore the quantum, entrepreneurial, and innovation ecosystem in Alberta. This event is invite-only, ensuring an exclusive gathering of like-minded innovators.

Travel Bursary:

Invited trainees will be able to apply for the Travel Bursary which will be awarded through a competitive application process. More information will be shared on our website soon!

Quantum Innovation Quarter:

The Quantum Innovation Quarter will showcase our vibrant quantum and entrepreneurial community in Alberta. We will focus on ecosystem builders from across the province, inviting them to engage with researchers leading innovation in quantum science and technology.

Date:

Nov. 15th, 2023

Time:

4:00 – 7:00pm (MST)

Location:

Hunter Hub – University of Calgary

Travel Bursary

**available for those residing outside of Alberta*
